

# RUVIREX – STATEMENT

## RUVIREX

### NATURAL HEALTH PROTECTION SYSTEM

The basis of the RUVIREX health system are ionic particles of silver (Ag +), copper (Cu +), which are smaller than the size of bacteria and viruses. Due to this property, RUVIREX particles can penetrate deep into the FUNGI, BACTERIA and VIRUSES, and destroy them.

The RUVIREX product line contains active substances that disrupt the protein envelope (nucleocapsid) of RNA viruses, which protects them from the external environment. In this layer, proteins are attached in order to anchor the virus to the host cell. Without the protein envelope, the virus cannot be cultured and propagated in the host organism, and therefore can be more easily removed by the host. RUVIREX is developed as a defense mechanism against a number of viruses and their mutations, which belong to the group of ENVELOPED VIRUSES. ENVELOPED VIRUSES include: COVID-19 - including all its mutations, herpes virus, orthomyxoviruses (influenza). RUVIREX is non-flammable, pH neutral, does not irritate the skin and does not damage any materials.

The RUVIREX product line is specially designed to protect various products and environments. The protection is specially adapted for: hands, clothing, air conditioning, ventilation, various types of transportation - individual and public transport.

### COMPOSITION

Active ionic silver (Ag +) 0.04mg / g, active ionic copper (Cu +) 0.002mg / g, Eucalyptus globulus extract, Melaleuca alternifolia extract, Lavandula angustifolia extract, orange natural resin, fixator. **ALCOHOL FREE** and **CHLORINE FREE**

### CERTIFICATION - LABORATORY TESTS - REGISTRATIONS

This statement is based on documents of Slovak state authorities in accordance with EU standards:

- Slovak Academy Of Science
- Ministry of Economy of the Slovak Republic
- National Toxicological Information Center
- Regional Public Health Office
- Cosmetic product safety report pursuant to Regulation (EC) No 1907/2006 of the European Parliament and of the Council 1223/2009 on cosmetic products
- EU registration CPNP database. RUVIREX GEL - 3518154. RUVIREX SAFE - 3519854
